

\*\*\*\*\* Assignment 2: marking report \*\*\*\*\*

Student: Ruiqing Xu

Student\_ID: acb19rx

\*\* 3 classes: Dev set \*\*

- Majority class classifier macro-F1: 0.201
- Student macro-F1: 0.526831

\*\* 5 classes: Dev set \*\*

- Majority class classifier macro-F1: 0.088
- Student macro-F1: 0.324430

\*\*\* Final mark: 18.5

- Report mark: 4.5

R1: Report is not organised into sections.

R2: Features and pre-processing are mentioned, but there is no information about how the features were extracted and why they chose the specific feature set

R3: Preprocessing done but no information about features that you were supposed to implement.

R5: Files are submitted, but with the wrong names

- Code & Implementation mark: 14

C2: The code is mostly documented and organised, but there are some important parts of the code that are not documented. z
